INSTALLATION

CLEAN EARCUP SURFACE BEFORE APPLYING SKINS

Remove the earcups from the headband or rail arms. Use mild soap and water or isopropyl alcohol to clean the surface of both earcups. Do not use harsh chemicals. Remove all dirt and grease before applying skins.

APPLY THE SKINS TO THE EARCUPS

Remove the adhesive backing and apply the skins to the proper locations on the earcups as shown below.

APPLY THE SKINS TO THE RAIL ARMS

If you have a Rail Arm Kit (sold separately), apply the skins to the Rail Arms as shown below.

REMOVING AND REUSING SKINS

To remove and reuse skins, simply peel off slowly and reattach backing for future use.
