

# M-Ax Mount™

For those that require a powerful helmet mounted flashlight during search operations, you will appreciate the maximum range of motion of the Multi-Axis Mount. Aim the light where you need it...done. Dubbed the M-Ax Mount™, this compact assembly mounts to the Ops-Core F.A.S.T.® Helmet ARC system, the Team Wendy® Exfil Rail 2.0 System or Galvion Caiman Helmet and takes the flashlight up and above the helmet rail, nesting it in a low profile position.

- Lightweight, low profile design
- Small assembly with multi-axis range of motion
- **Patent #: US 8727556**

- Compatible with all SureFire® 3V components.
- Available with or without SureFire® end cap and light components.

*Designed to fit the Ops-Core F.A.S.T.® helmet with ARC Rail System, the Team Wendy® Exfil Rail 2.0 System, and Galvion Caiman Helmet.*
